Natural Cosmetic Standard

The society for applied ethics in economy (www.angewandte-wirtschaftsethik.org), the owner of the CSE standard for certified sustainable ethics has introduced the NCS standard for natural cosmetics for all processors who do **not** like the linkage of the association work and the standard setting.

The NCS is a simple standard as originally developed for natural cosmetics. There is only a positive list of the approved ingredients and no further requirements to the composition of the product. Organic ingredients may be claimed with an asterisk in the assortment list. There is no percentage calculation of organic ingredients.

The logo may be used for free:

Costs arise for the evaluation, certification and audit of the production. In case of interest we provide individual cost estimation.

Up

certification body for: NATRUE, ICADA, NSF-305 (USA), Naturland, Demeter-Kosmetik, ISO Kosmetik GMP 22716, Natural Cosmetic Standard (NCS) www.natural-cosmetics.cc
